- Program Communications

Be Sure to complete both pages of this form

NEW THIS YEAR - Dane County Lawyer Search

We are pleased to announce the addition of a searchable membership directory available through our new website to our members and the public. With the information we collect below, the public will be able to select an area of practice for which they are seeking an attorney. If that is one of the areas of practice you mark on this form, your name and contact information will be included on the list of attorneys generated by the inquiry. This is not a "referral service" per se, but there is no charge to our members for being listed as an attorney providing expertise in this area of practice.

Probably the most frequently asked question from people who contact the DCBA office is, "can you recommend an attorney to (fill in the blank)." Currently they are given the number of the State Bar referral service. With this new service we can suggest instead that they do a search on our website of DCBA lawyers who provide the legal expertise they are seeking. This will result in less hassle for them and more potential business for our members.

Circle NO MORE than five (5) areas of practice that you would like listed in your profile when someone seeking an attorney in Dane County searches for a lawyer practicing that specialty.
